XII. Education

FFI Learning Center

The FFI Learning Center is a primary source of educational and instructional materials, to meet the needs and interests of the fly fishing community in the areas of Fly Fishing Skills, Fly Casting, Fly Tying, and Conservation. The Learning Center is a combination of annual in-person workshop instruction, as well as an electronic source for downloadable instructional materials found on the FFI Website.

It is the policy of the Education Committee for all educational materials included in the Learning Center curriculum to complete a comprehensive editorial and quality assurance process. The Learning Center is intended to provide the educational resource for the fly fishing community, and as a service to FFI members, Clubs, and Councils, in particular. In addition to providing fly fishing education in all four resource areas, Casting, Fly Tying, Conservation, and Fly Fishing Skills, the Learning Center will include a full array of educational opportunities for Youth, as well as the Women Connect Program.

The Education Committee will meet on a regular basis throughout the year, as Directed by the Chair of the Education Committee.
